

Coaxial Cable Clip

CM-7133

Channel Master

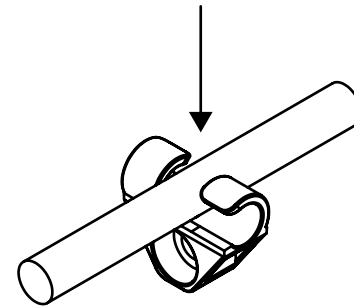

The Channel Master Coaxial Cable Mounting Clip is a durable all-metal clip designed to securely hold RG6 coaxial cable in place for long-term outdoor or indoor installations. Unlike standard plastic clips, this high-quality metal clip resists wear, cracking, and UV damage—ensuring a long-lasting, professional-grade installation.

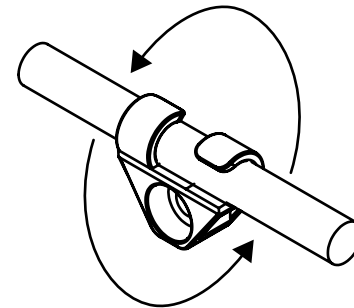

Installation Instructions

- Insert the clip onto the coaxial cable. **(Fig. 1)**
- Twist the clip onto the cable to secure it in place. **(Fig. 2)**
- Mount the clip to the desired surface using the included outdoor wood screw. **(Fig. 3)**
 - For concrete or masonry: Use a masonry anchor (not included).
 - For metal surfaces: Use a self-tapping screw (not included).
