Channel Master

Quick Start Guide

¼-20 Mount

CM-9039

What's Included

- 1x Ball Adapter (1/4-20 thread)
- 1x Wall Mount
- 8x Mounting Screws
- 1x Allen Wrench

Product Overview

This heavy-duty mount is compatible with any device that uses a 1/4-20 threaded screw.

Common uses include:

- Lights
- Cameras (security or action cameras)
- Speakers
- Other accessories with a 1/4-20 threaded base

Installation Instructions

1. Choose a flat, stable surface for mounting. (Mount is weather-resistant and suitable for indoor or outdoor use.)
2. Secure the mount using 2 to 8 screws (4 recommended for best stability). **Fig.1**
3. Thread the 1/4-20 ball stud into the device's mounting hole. **Fig.2**
4. Insert the ball into the wall mount. **Fig.3**
5. Adjust the device to the desired angle and tighten using the included Allen wrench.
6. For installation on surfaces like concrete, brick or stucco, wall anchors may be required but are not included. (Wall anchors can be purchased separately at your local hardware store.)
